EDUCATION

The Hong Kong University of Science and Technology (HKUST) Sep 2024 – Jun 2028

Major: Mathematics (Statistics) with an extended major in Artificial Intelligence

Minor: Big Data Technology

School of Science Student-Staff Liaison Committee: Student Representative

GPA: 3.44/4.3 (First Class Honors); Dean's List (top 5%, 2025-2026)

The Chinese University of Hong Kong (CUHK) Nov 2023 – Aug 2024

Science Academy for Young Talent Program: CUSA 1005 (Pass & Graduate with Distinction)

WORK & RESEARCH EXPERIENCE

The Life Underwriters Association of Hong Kong (LUAHK) Sep 2026 – Present

Generative AI Video Producer

- Produce AI-generated promotional videos for Hong Kong's life insurance professional body, using state-of-the-art text-to-video and image-to-video models (Seedance 2.5, Veo 3) to turn campaign briefs into finished content.

Department of Computer Science and Engineering – HKUST Aug 2026 – Present

Student Researcher; Supervisor: Binhang YUAN

- Design benchmarks evaluating frontier AI coding agents (e.g., Claude Code, Codex) on long-horizon workflows, scoring execution, task compliance, and output validity separately to expose failures pass/fail metrics miss.
- Build end-to-end evaluation pipelines with reference workflows and automated evaluators to measure how reliably LLM agents plan, execute, and verify multi-step tasks.

Cornell University – Department of Statistics and Data Science Mar 2026 – Aug 2026

Visiting Researcher; Supervisor: Dan Kowal

- Conducted research on Heterogeneous Regression: Towards Equity, Efficiency, and Interpretability.
- Applied various regression methods (ABCs, RGE, STZ) to real data to compare group-level effect estimates.

Information Technology Service Office – HKUST Jun 2025 – Present

Student Internship; Promoted as program leader in April 2026

- Co-developed an AI-powered platform for students and staff to provide automated IT support, integrating natural language processing (NLP) for intent classification and information retrieval.
- Supported campus-scale IT systems by analysing service desk and computer lab usage data.

HKU Li Ka Shing Faculty of Medicine – The University of Hong Kong Jun 2024 – Aug 2026

Research Assistant (Data Science)

- Analysed clinical datasets (n > 700) using Python for survival analysis and multivariable regression modelling.
- Assisted in both palliative care and spiritual care studies, performing statistical testing throughout the projects.
- Co-developed data visualization dashboards for research reporting.
- Coordinated five large-scale health-related exhibitions at HKCEC, each attracting over 30,000 visitors.

TECHNICAL SKILLS

-
- **Programming:** Python, SQL, R, MATLAB
 - **Data Analysis & Modelling:** NumPy, statsmodels; data cleaning, exploratory analysis, regression, hypothesis testing; Matplotlib
 - **Development Tools:** GitHub, Jupyter Notebook, Linux
 - **AI & LLM:** Machine Learning (Scikit-learn, PyTorch); LLM API integration, tool calling, RAG, agent evaluation

LEADERSHIP & PROJECTS

HackTheEast AI Hackathon	Nov 2025 – Mar 2026
<i>Core Organizer</i>	
- Organised an AI hackathon involving over 600 participants, including judging arrangements and evaluation criteria. - Bridged technical, business, and real-world needs to create challenges reflecting real industry use cases.	
International Genetically Engineered Machine Competition (IGEM)	Dec 2024 – Oct 2025
<i>Team Administrator & Team Leader (HKUST)</i>	
- Led Team HKUST to compete in Grand Jamboree in Paris. - Contributed to an interdisciplinary project in the field of biology, data science, mathematics, and engineering. - Led courses for underprivileged students and the public, promoting hands-on learning in life science and health. - Developed an ML model predicting protein metal-binding sites to screen cadmium-binding candidates.	

AWARDS & SCHOLARSHIP

SINO Living Lab Competition (Team Leader)	Nov 2025 – Jun 2026
Grand Champion	
International Genetically Engineered Machine Competition (IGEM) (Team Leader)	Dec 2024 – Oct 2025
International Silver Award	
HKSAR Government Scholarship Fund – Talent Development Scholarship	Sep 2024 – Jul 2025
<i>Awarded Areas: Innovation, Science and Technology</i>	
The World Scholars' Cup 2023	May 2023 – Nov 2023
<i>HK Round: 3 Gold Medals; London (UCL) Global Round: 2 Gold Medals;</i>	
<i>USA (Yale) Champion Round: 3 Gold Medals</i>	
The 15th Kowloon Region Outstanding Student Election	Nov 2022 – Aug 2023
<i>Kowloon Region: Outstanding Student ; Kowloon City Region: Outstanding Student</i>	
CityU Science Video Competition (Team Leader)	Nov 2022 – Jul 2023
<i>Silver Award</i>	
CodeQuest International Hackathon 2021 Competition	Jul 2021 – Jan 2022
<i>Global Second Prize, ranked 15th Globally and 3rd in Hong Kong</i>	
International Coding Elite Challenge	Apr 2021 – Jul 2021
<i>Preliminary Round: Gold Award ; Final Stage: Gold Award</i>	

VOLUNTEER, SERVICE & OUTREACH

Hong Kong Youth Ambassador Cadet	Apr 2026 – Present
International Genetically Engineered Machine Community	Dec 2024 – Oct 2025
Organising Committee, Kowloon Region Outstanding Students' Association	Jun 2024 – Present
Student Ambassador, CUHK Jockey Club Myopia Prevention Programme	Sep 2023 – Aug 2024
UNICEF Young Envoys Programme	Nov 2022 – Aug 2023

CERTIFICATIONS/ SELF LEARNING

Imperial College: Mathematics for Machine Learning Specialization	Aug 2026 – Oct 2026
Completed and passed the course related to Data Science & Machine Learning. (Grade: 96%)	
HarvardX: Data Science	March 2025 – Aug 2025
Completed and passed 9 courses related to data science including Inference, Modelling, and Linear Regression.	

LANGUAGES

Languages: Cantonese (Native), English (Fluent), Mandarin (Fluent), Spanish (Elementary)	
IELTS Results: 7.5 (Overall), 8 (Reading), 8 (Listening)	Dec 2023
